

## Built to order. Built to endure. Built to inspire.

*A Woodworks Design kitchen is personal, practical, and perfectly suited to your lifestyle.*

### We know kitchens

When remodeling a kitchen, you have hundreds of choices, but one choice makes all the others more manageable. When you select Woodworks Design, you get a kitchen solutions specialist who can guide you through all the options available for cabinetry, flooring, countertops, appliances, lighting, and many other elements of the kitchen.

### Get the kitchen you want

Our clients receive one-of-a-kind creations, not off-the-shelf products. We work directly with clients – as well as with their designers or architects – to determine styles, materials, colors, textures and other considerations that are part of a complete plan.

### Why Woodworks Design

Since 1991, Woodworks Design has crafted custom furniture and created award-winning custom interiors. We handle projects of any size and apply the same high standards for quality and customer service to each assignment.

- We provide detailed budgets
- All woodworking is done at our Middlefield, Ohio location
- We coordinate all aspects of a project – and work with specialists who are talented, reliable, and dedicated to quality

### Let's get started

Whether you want to see samples of our work or are looking for the right partner to turn your plans into a custom kitchen, we're ready to get started. Call Woodworks Design president Todd Armfelt at 440.693.4414.
