DESIGN

*A seamless solution.
Remarkable transformations.*

Any kitchen can be transformed into a one-of-a-kind creation with vision, precision planning, and expert craftsmanship. At Woodworks Design we provide homeowners, designers, and architects with a complete package of services that can take a project from concept through completion. Every custom creation is fabricated to meet precise specifications, and our design and build team manages the entire process – to maintain quality, control costs, and meet deadlines. The result is a seamless solution that achieves a remarkable transformation.

Every Woodworks Design project is distinguished. We define the modern craft of custom woodworking by uniting superior artistry, project management, and service. Whether it is custom cabinetry or a complete kitchen solution, homeowners will receive an extraordinary product for a remarkable value.

A partner that shares your vision.

Our clients come first. We share their vision and we value the role of architects and designers in achieving a distinctive kitchen transformation. We are experts in our field and can recommend materials and techniques to achieve the desired style, texture, color and functionality. We also have longstanding relationships with professionals in allied fields – to create highly skilled and dedicated project teams.

DESIGN

“As project managers, we believe accountability is paramount. We represent our clients to ensure that they get value for every dollar. Our goal is to build strong working relationships that keep projects on track from day one through project completion.”

D. Todd Armfelt
President
Woodworks Design

Precise processes create positive experiences.

Woodworks Design includes skilled craftsmen and project managers with experience in custom residential and commercial projects.

Set Goals

Meeting with the homeowners and their architects and designers to discuss all the project goals, including style, materials, budgets, and deadlines.

Create Budget

Provide detailed line-by-line budgets. Homeowners manage their expenditures and know exactly where every dollar is spent.

Manage Project

We represent homeowners and provide a single contact for the project. We assemble the Kitchen Solution team, coordinate trades, secure quotes, and arrange deliveries.

Layout Kitchen

Present detailed drawings of the finished kitchen with recommended materials and techniques to achieve design goals.

Custom Fabrication

Custom cabinetry and furniture is designed and built by a specialized woodworking team at our Middlefield workshop.

Complete Project

We apply exacting standards from concept through completion. The result is a remarkable and efficient kitchen transformation.
